CITY OF ALABASTER MITIGATION PLAN

Geography/History

Alabaster is located on Interstate 65, 20 miles South of Birmingham, six miles south of Interstate 459 and less than an hour from Montgomery in Shelby County. Alabaster is a sprawling Suburban city located at 33°13'52"N, 86°49'26"W (33.231162, -86.823829). According to the U.S. Census Bureau, the city has a total area of 25.4 square miles (53.2 km), of which, 25.3 square miles (53.0 km) of it is land and 0.1 square miles (0.1 km) of it (0.24%) is water.

The Alabaster area began as Siluria the old muster ground where the "Shelby County Volunteers" for the Indian War was organized in 1836. Early area settlers included Robert McClellan, 1805-1858, and Blassengame Nabors, 1787-1874.

In 1872, Thaddeus G. Holt served as Siluria's first Postmaster. James M. Reynolds opened the Longview post office, including the Saginaw area. Thomas C. Thompson organized and built on the banks of Buck Creek in Siluria a textile manufacturing plant. Soon thereafter, a village to house employees was built. In 1902 the Siluria Cotton Mill Co. was incorporated

In 1925, located next door to Siluria, the "growth potential" of the community that later became known as Alabaster, was recognized by Joseph E. Walker. He opened the first retail business and started rendering free delivery service to his customers.

U.S. Highway 31, a two-lane highway at that time, was the main artery from Birmingham to Montgomery, and played an important part in the growth of the community. George L. Shelby, Sr., an Alabaster pioneer, owned and operated Alabaster Lime Co. Later, housing was built to accommodate some of the employees, and the community acquired its name Alabaster from the "white calcium carbonate mineral".

In 1951, Alabaster, formerly served by Siluria, acquired their first post office. The First Bank of Alabaster opened in 1952, and its president was George L. Shelby, Jr., who later became the first mayor of Alabaster. The first attempt in 1952 to incorporate Alabaster failed. In January 1953, the petition was again filed, and on 23 Feb 1953, Alabaster was officially incorporated with a favorable vote of 79 to 23, and 427 residing inhabitants.

In 1954, the Town of Siluria was incorporated, with a population of approximately 600. In 1965, Buck Creek Industries, Inc. sold the village houses to the employees, and in 1971, the people of Siluria voted to merge with Alabaster. In 1955, the Alabaster Water and Gas Board was formed

Construction on the new Shelby County Hospital at Alabaster began in July 1958. Shelby Memorial Hospital had its dedication on Sunday, 27 Sept 1959. The present day City Hall was completed in 1960 and was the home of the Alabaster Public Library. In 1963

City of Alabaster All Hazards Mitigation Action Plan

Significant Characteristics

The Colonial Promenade shopping center offers many specialty stores as well as a Wal-Mart Super Center, Belks Department Store and a variety of restaurants and financial institutions. The shopping center is located on Highway 31 at Interstate 65 (Exit 238 off of Interstate 65)

The CityFest Celebration was started to celebrate Alabaster's 50th birthday in 2003 and has grown into one of the most popular celebrations in the area. Thousands of visitors attend the celebration which features live music, a large children's area with games, rides and other fun activities. Many vendors set up during the celebration to sell merchandise and food items.

The Brookwood Baptist Medical Center has 24-hour medical service and has grown along with the community over the years. It recently marked a milestone by opening a new cancer treatment center and the performing open-heart surgeries. The hospital is the medical hub for the tri-county area with an increasing number of patients from Shelby, Chilton and Bibb Counties.

The Alabaster Christmas Parade is one of Alabama's largest Christmas Parades. Over 100 entries join the parade including floats from area churches, schools, and civic organizations along with city and county officials, scouts, dance troops, motorcycles, car clubs, horses, and Santa Claus.

Population and Demographics

As of the census of 2010, there were 30,352 people, 11,016 households, and 6,482 families residing in the city [9]. The population density was 1,104.8 people per square mile (426.6/km²). The racial makeup of the city was 81.2% White, 15.0% Black or African American, 0.31% Native American, 0.64% Asian, 0.02% Pacific Islander, 2.2% from other races, and 0.69% from two or more races. 4.54% of the population were Hispanic or Latino of any race.

There were 11,016 households out of which 41.9% had children under the age of 18 living with them, 68.0% were married couples living together, 8.9% had a female householder with no husband present, and 20.6% were non-families. 17.1% of all households were made up of individuals and 3.6% had someone living alone who was 65 years of age or older. The average household size was 2.73 and the average family size was 3.09.

In the city the population was spread out with 27.7% under the age of 18, 7.0% from 18 to 24, 32.0% from 25 to 44, 25.0% from 45 to 64, and 8.0% who were 65 years of age or older. The median age was 35 years. For every 100 females there were 94.7 males. For every 100 females age 18 and over, there were 90.7 males. The city has grown more than 34% in the last 10 years.

Year	1960	1970	1980	1990	2000	2010
Population	1,600	2,600	7,100	14,600	22,619	30,352

Economy

The median income for a household in the city was \$64,411, and the median income for a family was \$78,940. The per capita income for the city was \$22,466. About 4.3% of families and 5.9% of the population were below the poverty line, including 7.0% of those under age 18 and 12.3%

**City of Alabaster
All Hazards Mitigation Action Plan**

of those ages 65 or over. Brookwood Baptist Health Doing Business with Shelby Baptist Medical Center is the city’s major private employer with more than 830 employees and over 230 beds.

Major Employers	Employees
Brookwood Baptist Health Doing Business with Shelby Baptist Medical Center	1100
Wal-Mart	350
Shelby Ridge Rehab	200
AGC Automotive	200
Cardiovascular Associates	200
Chandler Health & Rehab	200

Single-family new house construction building permits		
Year	Permits	Average Cost
2008	99	\$191,900
2009	48	\$183,000
2010	29	\$172,800
2011	30	\$170,200
2012	56	\$182,200
2013	59	\$210,900
2014	74	\$225,300

Infrastructure

The City of Alabaster Police Department consisting of 80 employees offers excellent coverage from well-trained and professional officers.

The Fire and Rescue Department is serving over 30 square miles of territory with three fire stations and is staffed with 57 full-time personnel.

The Alabaster City School System officially separated from the Shelby County School System on July 1, 2013.

School	Type	Enrollment
Creekview	Elementary	975
Meadowview	Elementary	1,012
Thompson	Intermediate	960
Thompson	Middle	1,402
Thompson	High	1,566
Linda Nolan	Learning Center	46
Kingwood Christian School	Private	375
Evangel Classical Christian School	Private	250

The City of Alabaster's total sewer treatment capacity is 7.6 million gallons per day.

**City of Alabaster
All Hazards Mitigation Action Plan**

The Alabaster Water Board is in the process expanding its daily supply for the city to provide for substantial growth. Currently Alabaster has a water capacity of over 4 million gallons a day. They have purchase agreements with Bessemer and Shelby County for another 2 million per day, if needed.

Capabilities

The Legal and Regulatory Capability survey documents authorities available to the jurisdiction and/or enabling legislation at the state level affecting planning and land management tools that support local hazard mitigation planning efforts. The identified planning and land management tools are typically used by states and local and tribal jurisdictions to implement hazard mitigation activities. If the jurisdiction does not have this capability or authority, does another entity/jurisdiction have this authority at a higher level of government (county, parish, or regional political entity), or does the state prohibit the local jurisdictions from having this authority?

The Administrative and Technical Capacity survey documents personnel employed by your jurisdiction and the public and private sector resources that may be accessed to mitigate hazards in the community. For smaller jurisdictions with limited capacities, no local staff resources may

**City of Alabaster
All Hazards Mitigation Action Plan**

be available for many of the categories. If so identify public resources at the next higher level of government that may be able to provide technical assistance to the community.

For some hazard mitigation actions, consider federal agencies that provide technical assistance, such as the U.S. Department of Agriculture (USDA) Cooperative Extension Service, which has offices in most counties. The planning team in rural communities must be creative in identifying outside resources to augment limited local capabilities. This information will be used when evaluating alternative mitigation actions and when preparing your mitigation.

Mitigation Goals and Objectives

The Mitigation Committee believes that each of the following goals, objectives, and action items is necessary to begin to address hazard issues in City of Alabaster. The following goal statements represent a broad target for City of Alabaster and its municipalities to achieve through the implementation of their own specific Mitigation Action Plans before the next Plan update.

GOALS	OBJECTIVES
All Hazards Goal: Mitigate the impact of all hazards on the city of Alabaster	Objective AH.1: Improve the city of Alabaster’s information distribution and warning capabilities for all hazards to citizens Objective AH.2: Improve the city of Alabaster’s 1 st responder capabilities to prepare for and respond to all hazards Objective AH.3: Improve the city of Alabaster’s capability to prepare for, respond to and recover from all hazards

**City of Alabaster
All Hazards Mitigation Action Plan**

<p>Flooding Hazard Goal: Mitigate the impact of flooding on the city of Alabaster</p>	<p>Objective FL.1: Improve the city of Alabaster’s flood warning and information distribution to citizens Objective FL.2: Improve the city of Alabaster’s 1st responder capabilities to prepare for and respond to flood events. Objective FL.3: Improve the city of Alabaster’s capability to prepare for, respond to and recover from flood events</p>
<p>High Wind Hazard Goal: Mitigate the impact of High Winds on the city of Alabaster</p>	<p>Objective HW.1: Improve the city of Alabaster’s High Winds warning and information distribution to citizens Objective HW.2: Improve the city of Alabaster’s 1st responder capabilities to prepare for and respond to High Winds events. Objective HW.3: Improve the city of Alabaster’s capability to prepare for, respond to and recover from High Winds events</p>
<p>Ice/Snow Hazard Goal: Mitigate the impact of Ice/Snow on the city of Alabaster</p>	<p>Objective IS.1: Improve the city of Alabaster’s Ice/Snow warning and information distribution to citizens Objective IS.2: Improve the city of Alabaster’s 1st responder capabilities to prepare for and respond to Ice/Snow events. Objective IS.3: Improve the city of Alabaster’s capability to prepare for, respond to and recover from Ice/Snow events</p>
<p>Wildfire Hazard Goal: Mitigate the impact of Wildfires on the city of Alabaster</p>	<p>Objective WF7.1: Improve the city of Alabaster’s Wild-land Fire warning and information distribution to citizens Objective WF.2: Improve the city of Alabaster’s 1st responder capabilities to prepare for and respond to Wild-land Fire events Objective WF.3: Improve the city of Alabaster’s capability to prepare for, respond to and recover from Wild-land Fire events</p>
<p>Urban Fire Hazard Goal: Mitigate the impact of Urban Fires on the city of Alabaster</p>	<p>Objective UF.1: Improve the city of Alabaster’s Urban Fire warning and information distribution to citizens Objective UF.2: Improve the city of Alabaster’s 1st responder capabilities to prepare for and respond to Urban Fire events Objective UF.3: Improve the city of Alabaster’s capability to prepare for, respond to and recover from Urban Fire events</p>

Multi-Jurisdictional Mitigation Actions

The actions listed in each jurisdiction’s Mitigation Action Plan serve as an easily understood menu of mitigation policies and projects for local decision-makers who want to quickly review their jurisdiction’s respective element of the countywide Plan. In preparing the individual MAP’s, each jurisdiction considered their overall hazard risk and capability to mitigate identified hazards as recorded through the risk and capability assessment process and to meet the countywide mitigation goals and the unique needs of their community.

Each jurisdiction participating in this Plan is responsible for implementing specific mitigation actions as prescribed in the adopted Mitigation Actions. In each Mitigation Action Plan, every proposed action is assigned to a specific local department or agency in order to assign responsibility and accountability and increase the likelihood of subsequent implementation. This approach enables individual jurisdictions to update their unique mitigation strategy as needed without altering the broader focus of the countywide Plan. The separate adoption of locally

**City of Alabaster
All Hazards Mitigation Action Plan**

specific actions also ensures that each jurisdiction is not held responsible for monitoring and implementing the actions of other jurisdictions involved in the planning process.

Mitigation Actions Prioritizing

Prioritizing mitigation actions for each jurisdiction was based on the “STAPLEE” process. “STAPLEE” uses multiple factors under the categories of Social, Technical, Administration, Legal, Economic and Environment. The original STAPLEE factors have been modified to enhance the prioritization process. The enhancements include adding life, property and economic items to the Social category and implementing weighting factors to Social and Economic categories. A weighting factor of 3 is used for loss of life and a weighting factor of 1 through nine is used for Economic impact of the hazard occurrence. A weighting factor of 2 is used for cost/benefit items. The actual table used for prioritization is at the end of this section.

Prioritizing mitigation actions for each jurisdiction was based on the “STAPLEE” process. “STAPLEE” uses multiple factors under the categories of <u>S</u>ocial, <u>T</u>echnical, <u>A</u>dministration, <u>L</u>egal, <u>E</u>conomic and <u>E</u>nvironment			
Issue	1	2	3
<u>Social</u> High Community Acceptance	Potential objection from public and/or very expensive	Unknown if objectionable, or costs may be significant	Not objectionable and low/no costs
High Effect on saving lives	Life saving impact is low	Life saving impact is moderate	Life saving impact is significant
High Effect on reducing property loss	Effect on reducing property loss is low	Effect on reducing property loss is moderate	Effect on reducing property loss is significant
Effect on reducing economic loss	Effect on reducing economic loss is low (factor 1-3)	Effect on reducing economic loss is moderate (factor 4-6)	Effect on reducing economic loss is significant (factor 7-9)
<u>Technical</u> Is Technical Feasibility	Technology not currently existing	Emerging or untested technology or unknown	Technology readily available
Is a Long-Term Solution	No, is not effective in helping reduce losses in the long term	Potentially or unknown	Yes, is effective in helping reduce losses in the long term
No Secondary Impacts	Yes, likely to create secondary problems	Potentially or unknown	No, unlikely to create secondary problems
<u>Administrative</u> Little Staffing is required	Need to hire a permanent employee(s)	Potentially need to hire a temporary employee(s) or unknown.	Do not have to hire
Funding Potential is high	No obvious source of funding available and action has significant cost impact	Limited or unknown funding available	Little or no funding required or funding can be readily obtained
Low Maintenance and Operations	The action is likely to require high level of ongoing maintenance	Unknown or action has the potential for moderate ongoing maintenance	Action requires limited or no ongoing maintenance

**City of Alabaster
All Hazards Mitigation Action Plan**

<u>Political</u> High Political Support	Local Elected Official likely to be contentious	Local Elected Official may be controversial	Local Elected Official likely to be supportive
Local Champion available	Unlikely there is a Local Elected Official to support	Uncertain if there is a Local Elected Official to champion	A Local Elected Official is likely to support and champion
High Public Support	Public Political support is unlikely	Public Political support is uncertain	Public Political support is likely
<u>Legal</u> State Authority Exists	No legal state authority exists	Legal state authority is unclear, uncertain or adoption is in progress	Legal state authority exists
Local Authority Exists	No legal authority exists	Legal authority is unclear, uncertain or adoption is in progress	Legal authority exists
Potential Legal Challenge is high	High likelihood of legal challenge by stakeholders	Moderate likelihood of legal challenge by stakeholders	Low likelihood of legal challenge by stakeholders
<u>Economic</u> High Action Benefit	Low benefit to the jurisdiction from the action	Moderate benefit to the jurisdiction from the action	High benefit to the jurisdiction from the action
Low Action Cost	High cost to implement action	Moderate cost to implement action	Low cost to implement action
High Economic Contribution	Low contribution to other community economic goals	Moderate contribution to other community economic goals	High contribution to other community economic goals
Outside Funding is Required	Likely for action to be delayed pending outside sources of funding	Possible for action to be delayed pending outside sources of funding	Unlikely for action to be delayed pending outside sources of funding
<u>Environmental</u> Low Land/Water Effect	High likelihood of negative consequences to land/water	Moderate likelihood of negative consequences to land/water	Low likelihood of negative consequences to land/water
Low Endangered Species Effect	High likelihood of potential negative consequences to endangered species	Moderate likelihood of negative consequences to endangered species	Low likelihood of negative consequences to endangered species
Low Environmental Effect	No, project is not consistent with jurisdiction environmental goals	Possible, project is consistent with jurisdiction environmental goals	Yes, project is consistent with jurisdiction environmental goals
Federal Law Compliant	No	Uncertain	Yes

Mitigation Actions

Each jurisdiction participating in this Plan should review the specific mitigation actions as prescribed in the adopted Mitigation Action Plan. In each Mitigation Action Plan, every proposed action is assigned to a specific local department or agency in order to increase the likelihood of subsequent implementation. This approach enables individual jurisdictions to update their unique mitigation strategy as needed without altering the broader focus of the countywide Plan. The separate adoption of locally specific actions also ensures that each

**City of Alabaster
All Hazards Mitigation Action Plan**

jurisdiction is not held responsible for monitoring and implementing the actions of other jurisdictions involved in the planning process.

Hazard Goal & Action	Action/Project Description	Responsibility	Funding Source	Estimated Cost/ Benefit	Start/ End Date	Priority
AH1b	Schedule regular hazard warning unit's maintenance and testing, monthly.	City Officials EMA	City Budget	5,518	2015 2020	78
